Bourbon Fiscal Court Meeting.

The Bourbon Fiscal Court met in regular monthly session yesterday morning. In the absence of Judge Denis Dundon, who is on a business trip to Baltimore, Squire L. J. Fretwell presided over the meeting as Judge pro tem. The following magistrates were present: L. J. Fretwell, E. P. Thomson, W. H. Squires, J. J. Redmon, Omer Lloyd, Ben F. Stipp, J. T. Barlow and George K. Redmon. Claims to the amount of \$570.88 were allowed and ordered paid.

Turnpike Supervisor Claude F. Redmon submitted his report for the month of February which was received by the court and ordered filed. The sum of \$1,000 was appropriated for the use of the Supervisor for the repairs on the turnpikes for the month of March.

A committee composed of Squires Redmon and Lloyd appointed to investigate the cost of caring for the court house, made its report in writing and were discharged. The sum of \$600 was appropriated to J. A. Paris, jailer, with which to meet the expenses of caring for the court house for one year beginning March 1, 1910, the said amount to be paid to him quarterly.

An order appropriating the sum of \$100 per month to Jailer Joe Paris, for light, coal, etc., at the county jail was entered. Jailer Paris is to make a settlement to the court of his account every three months.

The committee appointed to purchase an adding machine reported that they had bought a Bourroughs machine for Bourbon county at a cost of \$375, the same to be paid for December 1, 1910 without interest.

Dr. Logan Gragg was appointed pauper physician for the Hutchison precinct at a salary of \$100 per year, his duties to begin July 1, 1910.

Esquires Squires and Stipp were appointed a committee to make an inventory of the property belonging to Bourbon county in the court house.

Turnpike Supervisor Redmon was ordered to advertise for bids on the turnpikes at least 15 days before the regular April term of the Fiscal Court, said bids to be received by the court at the April meeting.

Esquire Fretwell was appointed a committee to investigate the locks at the county jail and to have same repaired as he saw proper.

An order was entered allowing overseers the sum of \$2 per day while they were working the delinquent taxpayers. The court then adjourned until the next regular monthly meeting.

Noah Moore Appointed Postmaster.

The Senate Wednesday afternoon confirmed the appointment of Noah Moore as the postmaster of Paris. The confirmation of President Taft's nomination, terminates the long drawn out fight for the postmastership of the Paris office which has been waged for several months. J. L. Earlwyne, the present incumbent, was the opposing candidate to Mr. Moore. The change in the Paris office will become effective within the next two weeks.

BLUE GRASS LEAGUE NOTES.

President Bacon yesterday received the signed contract of Ed McKernan, who will manage the Paris club the coming season. McKernan will be in Cincinnati the coming week and it is likely he will come to Paris to confer with the local officials in regard to the prospects of a winning club for this season.

"Red" Kline, who last year served the Lexington club in the capacity of pitcher, has refused to accept the terms proffered by Manager Sheets and has returned his contract to the Lexington manager unsigned. The contract offered Kline is said to be a good one. Sheets expects the Queen City twirler to come to terms before the season opens.

The base ball fans of Shelbyville are quite "chesty" over the reports Manager Kuhn is making of the team he proposes to put in the Blue Grass League next season. When he took over the franchise, Kuhn announced that he wanted no cheap players, but would look for men who could land Shelbyville in the first division, even if they were not the pennant winners—and he does not despair of attaining this proud position from the present prospects.

He has on his reserve list Vallandingham Guy Long and Watkins, pitchers; Kircher, catcher and outfielder; Allison, Glenn and Williams, infielders.

The new men he has a line on are Becker, of Louisville, who has starred in the Southern and Cotton States Leagues; Kremer, of Rockport, Ind.; "Rasty" Wright and Blummer, of Middletown, pitchers; Lemon, of Rockport, Ind., who has been playing with the Central and K. I. T. Leagues, and Strubb, of St. Louis, who has been in the Trolley League, catchers; Hoffman and Lewis, infielders, and Arthur Long, outfielder.

Manager Kuhn proposes to make extensive improvements in the grounds and prepare much better accommodations for the patrons of the game than they have ever before enjoyed.

being county court day, about the hour of 11 o'clock, a. m., expose to public sale, at the court house door in Paris, a very desirable city residence located on the East side of Main street, Paris, Ky., and bounded as follows, in deed from Stamler and wife to Samantha Walls:

"A certain lot of ground and all the improvements thereon, situated on the South side of Main street, Paris, Ky., fronting 54 feet, more or less, on said street, running from the corner of J. T. Sharrard and on the other side by the property of Harry Stamler and Gertie Stamler; and the parties of the first part expressly reserved the right to the center of the driveway which lies between the property conveyed herein and the property of the first parties, but grants to the second party the same rights."

The above residence is a modern two-story frame dwelling of seven rooms, with all modern conveniences; electric lights gas and water. The house is of good materials and workmanship. Healthful and desirable surroundings, good neighborhood, convenient to business center and near the interurban railroad. A rare opportunity to purchase a desirable home.

Shiftless Neighbors.

"I want the Globe," writes Mrs. Ly-sander John Appleton, "to suggest to its readers that they keep up the spirit of improvement around the house. I borrowed a stepladder of a neighbor recently, and it was broken. A lawn mower I borrowed of another was in such poor condition I couldn't use it, and the washbowl I borrowed from another neighbor leaked so badly it put out the fire. Don't these people know that such signs of neglect speak ill of them? I haven't made any jelly this summer because another neighbor's preserving kettle is cracked. Really, I shall have to move out of the neighborhood unless my neighbors improve."—Aitchison Globe.

Boys' and Girls' Farm Clubs.

"In recent years good work has been done by various agencies in the way of arousing interest in country life and making the farm more attractive to the young men and women, who are showing a disposition to apply modern methods to the acres of their patri-mony. One successful new method of agricultural education that has been devised takes the form of boys' and girls' clubs. Such clubs usually provide for prize contests among the members. Corn growing contests are probably the most popular among the boys, while the girls compete in bread-making or sewing, or even test their skill against that of boys in garden-ing. The Department of Agriculture has information of ninety-five counties in twenty-eight states in which such clubs are organized, with a total membership of about 144,000. New York has about 7,500 members; Nebraska, 25,000; and other states smaller numbers. In most cases these clubs are organized under the auspices of some state authority.

Intimidation.

A neighboring newspaper man in passing the home of the sweetheart of a delinquent subscriber saw the couple in loving embrace. In an attempt to collect his due he stated in his paper that the following week he would publish the name of the young man seen with his sweetheart's head on his shoulder if he didn't come across with a dollar on subscription. Twenty-seven young men slipped in the day after the paper was issued and forked over a dollar each. Several others wrote that they would hand him the money the first time they were in town. He promised each one faithfully that he would not make the threatened publication. It was certainly a mean trick, even if it did accomplish great results.

Do it Now.

The time for Spring work will soon be upon us when farmers will be rushed and will have but little spare time. During these days of enforced idleness, when mud or snow prevents more active work, is a good time to get ready. The gear and harness should be gone over and mended; farming utensils should be looked over; nuts tightened and missing bolts replaced. If new plow points are needed they should be procured now. A good coat of paint will add both to the looks and the lasting qualities of many tools and should not be forgotten. Chicken coops may be put together, grape vines and fruit trees trimmed and much other work be done now instead of at a later date when work is pressing and time more precious.

The Young Idea.

"Ma," said a newspaper man's son, "I know why editors call themselves 'we.' 'Why?' 'So's the man that doesn't like the article will think there are too many people for him to tackle.'—Christian Work and Evangelist.

A CORROBORATION.

Of Interest to Paris Readers,

For months Paris citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by Paris residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement? No stronger proof of merit can be had than cures that have stood the test of time. The following statement should carry conviction to the mind of every Paris reader.

Mrs. J. W. Huffman, 115 N. Main street Paris, Ky., says: "I gladly corroborate the public statement I gave in 1905 in which I made the fact known that I had used Doan's Kidney Pills with satisfactory results. I had sharp pains across my back and kidneys and at times was so miserable that I could hardly attend to my work. Head-aches and dizzy spells were also common. Doan's Kidney Pills removed all these symptoms of disordered kidneys and I have never had any return attacks."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Promptly at seven the wedding procession entered, coming down the two aisles, the ushers leading. They were Messrs. C. B. Treadway, of Lexington; Thomas Jones, of this place, Owen Moreland, of Georgetown, and Bennett Bean, of Lexington.

Miss Sarah Jones, of North Middletown, came next opposite Mr. Wm. Collins, of Lexington.

Then Miss Beulah Lambert, of Owensboro, with Mr. Tolle Young, of North Middletown. Miss Nannie Bridges, the maid of honor, entered with the best man Dr. R. C. Redmon, of Lexington, on the opposite side of the church.

The bride looked beautiful in white satin, veiled in point de esprit with a pearl yoke. Her long veil was caught with orange blossoms, and she carried a shower bouquet of bride's roses and lilies of the valley. She entered upon the arm of her father, Mr. B. F. Bridges.

At the altar they were met by Dr. R. H. Crossfield, of Lexington, who in an impressive manner, plighted their troth, during which the organist played "Call Me Thine Own."

After the ceremony the happy couple left for a month's trip to Florida. After March 24 they will be at home in North Middletown where the groom is cashier of the Deposit Bank.

STOCK, CROP AND FARM NOTES.

—Orie Speakes & Bros. bought in Cincinnati a pair of bay draft mares, for \$450.

—W. L. Brannock bought of Tim Shannon his 35-acre farm, near Paris, on the Ruddies Mill pike at \$80 per acre—\$2,800 cash.

—The price of hogs went over the \$10 mark in the Cincinnati market Tuesday when sales were made at \$10.05 a hundred pounds. This is the highest price since the Civil War.

—Albert Evans, of Little Rock, has purchased of Mrs. Mollie Bolson her home containing five acres of land, for \$1,250, which he has rented for the year 1910 to his brother-in-law, Alonzo McKenzie.

—The Cynthia Democrat reports the Harrison county court as follows: "Large crowd; all merchants report good trade. No cattle on the market. Large number of plug horses selling from \$50 to \$100. Sheep \$5 to \$5.60 per head."

—Mr. H. O. James lost a valuable filly colt, for which he had refused \$500. The colt, which was by Egyptian Princess, dam a Gambetta Wilkes mare, accidentally hung itself by catching in its head between two planks while attempting to escape from its quarters.

—The wheat crop of Bourbon is in an excellent condition due to the heavy coverings of snow which has afforded it much protection during the severe cold snaps. The advent of Spring will find an abundance of grass, and meadows will afford fine pasturage for live stock.

—The firm of Abnee & Mussion, of this city, have this season purchased 2,352,000 pounds of tobacco and up to this date have had delivered to their warehouses in this city 2,225,000 pounds. The remainder of their purchase, 100,000 pounds, is expected to be delivered immediately. The average price paid for this tobacco was 13 1-8 cents, or an aggregate of \$301,725.

Auctioneer Geo. D. Speakes reports the sale of T. J. Shropshire near Leesburg, Tuesday, as follows: Horses sold at \$85 to \$175, cows at \$35 to \$45, sows at \$30 to \$35, and pigs at \$40 to \$42.50, sheep \$9 to \$10, chickens 55 cents to 75 cents each, turkey hens \$2.50 each, and corn in the crib at \$3.10 per barrel. Farm implements sold high.

—With the approach of the busy season among the farmers comes the pressing demand for good work stock with the result that good horses and mules are finding a ready market. At the sale of Thomas Marshall, near this city Tuesday 60 head of mules were disposed of at prices ranging from \$160 to \$250 per head. The prices obtained at this sale will go on record as the highest paid for work stock for several years.

—During the last few months about 100 families from Kentucky have moved to Northwest Missouri to take up

the cultivation of tobacco. About two years ago extensive experiments proved that that section is adapted to tobacco culture. Last year 2,000,000 pounds of tobacco was raised in Platte county. During the present year thousands of acres of tobacco will be cultivated, and Kentucky families are moving there to teach the native farmers the best methods of culture. At present Weston, Mo., is the center of the tobacco business. Hundreds of tobacco barns are being built and many farmers are growing from five to ten acres.

—The Gazette reports the Fleming court as follows: "Yesterday was a muddy, disagreeable day on the street. There were 300 or so cattle here, and the market was rather mean, only about half sold. Among the sales noted by R. S. Hudson were 5 two-year-old steers at \$34, 10 good calves at \$32, 2 fat heifers at 5 cents, 17 ewes and bucks at \$5.55 per head. No hogs here but fat ones would have brought 8 1-2 and good stock hogs 9 cents. A good many horses changed hands at \$100 to \$175, there being several foreign buyers on hand. There were also a number of mules sold, among the sales being one pair sold by Bert McClintock to Tom Robertson at \$560, 2 others sold at \$200 and \$195 for mare mule, 1 coming yearling mule \$107.50, and others not noted. RACING PIGEONS.

Their Wonderful Speed and Mysterious Homing Instinct.

Racing pigeons are the fleetest of all creatures. They have maintained a speed of a mile and a half a minute for a hundred miles, according to a writer in Collier's, and they have flown 700 miles between the rising and the setting of the sun.

Pigeons have flown a thousand miles back to the home loft. In 1904 a bird covered that distance in 5 days 2 hours 15 minutes, proving how unerring is the mysterious homing instinct that will drive pigeons across the continent without swerving. But this test is not true sport. The birds simply hurt themselves against time and space till they are played out. They can never race again.

The racer rises into the air with heavy, slow wing pulsations; then, once poised over the starting point, there is a swifter, shorter beat, and the time is "hit up" to the third and permanent wing rhythm, rapid and steady as a pulse beat, which carries it home.

Racers fly 300 feet high over land, but low over water. Their enemies as they fly are wind, rain, gunners and hawks. They do all their flying between sunrise and sunset. If caught out overnight they fend for themselves till dawn.

The homing instinct is lifelong. During the Franco-Prussian war the Germans caught a homing pigeon which was on its way into beleaguered Paris. The bird was kept prisoner for ten years. It was then released. It immediately returned to its old home.

DISCOVERED BY ACCIDENT.

How the Paving Value of Asphalt Was Brought to Notice.

All forms of bituminous pavements, whether manufactured from natural or artificial asphalt, are in fact artificial stone pavements. The industry started with the use of the natural rock asphalt from the mines in the Val de Travers, Canton Neuchatel, Switzerland. The mines were discovered in 1721, but it was in 1840 that its utility as a road covering was first noticed. The rock was then being mixed for the purpose of extracting the bitumen contained in it for use in medicine and arts. It is a limestone found impregnated with bitumen, of which it yields on analysis from 8 to 14 per cent.

It was observed that pieces of rock which fell from the wagon were crushed by the weight of wheels, and under the combined influence of the traffic and heat of the sun a good road surface was produced. A macadam road of asphalt rock was then made which gave very good results, and finally in 1854 a portion of the Rue Bergere was laid in Paris of compressed asphalt on a concrete foundation. In 1858 a still larger sample was laid, and from that time it has been laid year by year in Paris. From Paris it extended to London, being laid on Threadneedle street in 1869 and Cheapside in 1870 and in successive years on other streets, and then its use in street and road making extended to other countries.—Exchange.

Followed the Book.

"Die, Bertrand Maltravers!" hissed the villain. And the hero of the piece prepared to fall and perish, as per instructions of the prompt book.

But, lack, the revolver with which the fell deed was to be executed failed to do its horrid work! The villain, however, was a man of resource.

He stole behind his victim and smote him on the head with the butt end of the refractory weapon, and the hero, thinking one death as good as another, fell to the ground.

All would have gone well now, but the promoted super, who was taking the part of the policeman who discovered the body, was late in taking his cue. He walked on and in due course found the body. He was not a funny man by any means, but still his first words caused a yell of laughter.

"Shot!" he cried tragically. "He's been shot through the back!"—London Scraps.

A Peculiarity of Dreams.

As to dreams, there was a discussion at the club lunch, and one man remarked that no man dreamed of himself as braver than he is. When the dream came the dreamer was always the underdog. He was in horrible danger and never did anything picturesque to face it. There may be men who are brave in their sleep, but it would be interesting to find one man outside of the dozen sleeping cowards who is a hero in a dream.—London Chronicle.

A Disappointment.

"Uncle Jed," asked his neighbor, "how is your boy getting along at college?"

"First rate," answered Uncle Jed. "He hasn't cost me a cent. He's working his way through, he's winning all the class honors, and they've promised him a professorship of some kind."

"Great Scott," gasped his neighbor, "is that all he is doing? With that big husky frame of his I supposed he'd be playing center by this time!"—Chicago Tribune.

WILD FLOWERS IN TROPICS

Trees of the Forest for Miles Are at This Time Converted into Floral Bowers.

Between Tonalá and the Guatemala border exists one of the greatest floral bowers in the republic. This is the time of year when all of the morning glories and many other wild flowers of the tropics are beginning to bloom, and railroad men who are familiar with all the roads of the republic say that the grandest sight of all is to be seen here. The massive trees in the forest which line for miles the railroad are covered to the tops with vines and blossoms, and the telegraph poles and wires present a similarly beautiful sight.

Along the line are hundreds of cornfields, and it seems that each stalk of corn forms a pole upon which is growing a morning glory vine. This does not in the least hinder the crop, for the corn of the particular season has been topped ready for harvest.

Near Mepastepec, below here, there is a lane some six kilometers in length where the tops of the trees on either side of the track almost meet, forming a most strikingly beautiful floral arch. These trees are all covered with vines with the millions of blossoms, and the sight is one rarely if ever, seen in other parts of Mexico.—Gamboa correspondence, Mexican Herald.

Assurance.

"Sir, you offer me, you say, a fortune, but before I accept you I must be assured it is clean money. Is it?"
"It ought to be, madam; I made it in soap."—Baltimore American.

A Man of Iron Nerve.

Indomitable will and tremendous energy are never found where stomach, liver, kidneys and bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills, the matchless regulators, for keen brain and strong body. 25 cents at Oberdorfer's.

Getting Ready.

Farmers everywhere are getting ready for sowing tobacco beds, and if the weather is propitious they will be sown quite early this year. While the winter crop is always larger than that of the following summer, the present indications are that a large acreage will be grown again this summer. Owing to the cutting out of the crop of 1908, the surplus is not large, even with the big crop of last year. Most of the unpooled tobacco has been sold and delivered and about the only supply for the market is that held by the Burley Society. Just how long it will be before the manufacturers can not do without this is now the question and this will have a considerable effect on the proposed pool of 1910. If the present pool can be disposed of in a short while and at satisfactory prices there will not be much trouble in pooling a considerable portion of the crop of 1910. If, however, the sale of the present crop drags along for months, many who believe the principles of the pool to be to be correct will be loth to join.

Elderly People Helped Free

The last years of life are the sweetest, and yet the most difficult to prolong. It is then that the greatest care is exercised in maintaining bodily health. But the chief care should always be with regard to the food you eat and whether you are digesting it properly. You should not allow yourself to become constipated.

No doubt you have tried salts and cathartic pills, purgative tablets, etc., and have come to the conclusion that they are violent in action and do but temporary good. Listen, then, to the voice of experience with regard to a wonderful and mild laxative, Dr. Caldwell's Syrup Pepsin. It is not new, only we are trying to and new friends for it.

A. A. Felts, of Johnston City, Ill., suffered from stomach trouble for six years and found his cure in Dr. Caldwell's Syrup Pepsin. His wife uses it too with success. We could name hundreds of others. Some heard of it first through neighbors or friends; others through the doctor's office; and many others from a stomach, liver or bowel complaint a free sample bottle for trial, without charge. If you will send your name and address we will send you a trial bottle direct to your home. If it proves itself as he claims then continue the treatment by buying a 50-cent or \$1 bottle of your druggist, as all of them sell it. Old people, like children, should look for purity, and it is well to mention that the purity of this remedy is vouched for with the U. S. government. Also, though a free bottle is sent to prove its merits, results are always guaranteed from the regular bottles bought of druggists, who will refund your money if it does not satisfy you. Send at least for the free test bottle today.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 500 Caldwell Bldg., Monticello, Ill.

Piles! Piles! Piles!

Have you neglected your kidneys? Have you overworked your nervous system, and caused trouble with your kidneys and bladder? You in joints, side, back, groins and bladder? Have you a flabby appearance of the face, especially under the eyes? Too frequent a desire to pass urine? If so, Williams' Kidney Pills will cure you—at Druggists. Price 50c. Williams' Mfg. Co., Props., Cleveland, O. For sale by Oberdorfer.

Sauce For the Goose.

Visitor—Who is that crazy man yelling and struggling so? Hospital Attendant—He isn't crazy. That's Dr. Sabre, the celebrated surgeon. They brought him here yesterday, and the doctors have just ordered an operation.—Puck.

Williams' Kidney Pills.

Williams' Indian Pile Ointment will cure Blind, Bleeding and Itching Piles. It absorbs the tumors, allays itching at once, acts as a poultice, gives instant relief. Williams' Indian Pile Ointment is prepared for Piles and itching of the private parts. Sold by druggists, mail 50c and \$1.00. Williams' Mfg. Co., Props., Cleveland, O. For sale by Oberdorfer.

More Than He Deserved.

Jones—What did your rich uncle leave you when he died?
Smith—Nothing.
Jones—Didn't he say anything to you before he passed away?
Smith—Yes; he said nothing was too good for me.—London Tit-Bits.

The Lash of a Fiend

would have been about as welcome to A. Cooper, of Oswego, N. Y., as a merciless lung-racking cough that defied all remedies for years. "It was most troublesome at night," he writes, "nothing helped me till I used Dr. King's New Discovery which cured me completely. I never cough at night now." Millions know its matchless merit for stubborn colds, obstinate coughs, sore lungs, lagrippe, asthma, hemorrhage, croup whooping cough or hay fever. It relieves quickly and never fails to satisfy. A trial convinces. 50 cent and \$1.00. Trial bottle free. It's positively guaranteed by Oberdorfer.

Some Excuse Needed.

Wife—Why did you tell the Jemsons that you married me because I was such a good cook, when you know that I can't even boil a potato? Hubby—I had to give some excuse, dear, and didn't know what else to say.—Illustrated Bits.

Don't Break Down.

Severe strains on the vital organs, like strains on machinery, cause break-downs. You can't overtax stomach, liver, kidneys, bowel or nerves without serious danger to yourself. If you are weak or rundown, or under strain of any kind take Electric Bitters the matchless, tonic medicine. Mrs. J. E. Van de Sande, of Kirkland, Ill., writes: "That I did not break down, while enduring a most severe strain, for three months, is due wholly to Electric Bitters." Use them and enjoy health and strength. Satisfaction positively guaranteed. 50 cents at Oberdorfer's.

An Effort to Elucidate.

"Father," said little Pollo, "what is a political trickster?"
"I can't give you a definition that will cover all varieties, but in general terms he is a member of the opposition who succeeds in having his own way."—Washington Star.

It Saved His Leg.

"Al thought I'd lost my leg," writes J. A. Swensen, of Watertown, Wis. "Ten years of eczema, that 15 doctors could not cure, had at last laid me up. Then Bucklen's Arnica Salve cured it, sound and well." Infallible for skin eruptions, eczema, salt rheum, boils, fever sores, burns, scalds, cuts and piles. 25 cents at Oberdorfer's.

Mace.

Mace is one of the outer coverings of the nutmeg and is preferred by many cooks because of its color.

SEAL HUNTING.

Eskimo Methods in Dealing With the Wary Crestures.

Writing of far northern hunting methods, Harry Whitney thus describes in Outing how Eskimos kill the wary seal:

"Many seals were seen on the fresh made ice, and Eiseeyou, my head man, expressed a desire that I take charge of his dog team while he stalked some of them. Seals are extremely shy, and great caution must be practiced in approaching them. The Eskimos use a blind in the form of a miniature sledge, about eighteen inches in length by six in width, with bearskins tacked on the runners. Fore and aft are two upright crocheted sticks, upon which the rifle rests and to which it is lashed. On the front of the sledge a cross-bar sustains two long perpendicular sticks, over which a piece of white cloth is stretched, or when that is not attainable hareskin is substituted. Through a hole in this cloth screen the muzzle of the rifle protrudes.

"Holding his blind before him, he was enabled to walk within 300 or 400 yards of a seal without startling it. Then he dropped on his hands and knees and pushed the little sledge before him. Thus hidden behind the cloth screen, which so blended with the ice as to arouse in the seal no suspicion of danger, he approached within fifty yards before shooting. Seals always lie close to their holes, and it is necessary to hit them in the head or under the shoulder and have the bullet penetrate the heart and kill them instantly; otherwise they will flop into the hole and sink before it is possible to reach them."

NORWAY'S BILL OF FARE.

Fish and Boiled Potatoes Served Day After Day.

"As we sat cozily before the cheerful blaze," writes Caroline Thurber in a delightful account of "A Motor Invasion of Norway" in the Century, "we indulged in mathematical calculations and found that we had eaten forty-two consecutive meals of fish, with potatoes never otherwise than boiled. One of the women of our party once cried from her soul to a sympathetic looking host, 'Why, oh, why, are there no chickens in Norway?'"

"There are, madam, but they are for laying purposes."

"Then why, oh, why, do you always boil your potatoes?"

"We are different from you, madam. We don't like them messy. We prefer to know a potato as a potato when we eat it."

"In our passage through the country we had certainly encountered new and unpalatable foods, but we were always nourished, for good milk, butter and eggs were everywhere at hand, and we developed powers of digestion previously undreamed of. Even so, one supper menu staggered us—nota bene: Sausages, three kinds; raw salmon, pickled anchovies, shrimps, cold fried fish, cold fish pudding, cold meats, five varieties of cheese, pickles, oranges and gooseberry marmalade, tea, four kinds of raised bread, flat bread with caraway, English biscuit, Norwegian rusks, fried eggs, hot stew (variety unrecognized) and boiled potatoes."

A Week of Blunders.

Sir William Harcourt once told me that he had dined out every night for a whole week in advance of his invitation. He discovered his mistake only on the last night, when on going to dine with some people who gave long invitations and large dinners he found them alone. After a very pleasant evening he thanked them for asking him in so friendly a manner, whereupon they explained that the invitation had been for a week later, but that they had been only too delighted at his mistake. On hearing this Sir William looked at his engagement book and discovered that this was the last of a number of invitations which he had anticipated by a week.—"Memoirs of Fifty Years," by Lady St. Helier.

Tiny Work.

Mark Scallot, a blacksmith, in 1578, in the twentieth year of Queen Elizabeth's reign, made a lock consisting of eighteen pieces of steel, iron and brass, with a hollow key to it, that altogether weighed but one grain of gold. He also made a gold chain, composed of forty-three links, which he fastened to the lock and key. In the presence of the queen he put the chain about the neck of a flea, which drew it with ease, after which he put the lock and key, flea and chain into a pair of scales, and they together weighed but one grain and a half. This is vouched for by an old writer.

Impossible.

A fussy lunged auctioneer was holding forth in flowery terms on the virtues of a particular brand of cigars he was endeavoring to induce his audience to purchase. Holding up a box of cigars, he shouted: "You can't get better, gentlemen. I don't care where you go, you can't get better!"

"No," came a cynical voice from a man in the crowd, "you can't. I smoked one last week and I'm not better yet!"—People.

That Wheezy Sound.

"Say," inquired the boy next door of the little girl whose father suffered from asthma, "what makes your father wheeze so?"

"I guess it's one of his inside organs playing."—Puck.

Tommy's Share.

"Well, Tommy, what part of the chicken will you have?"

"Why, paw, you know I always take the back when there's company."—St. Louis Republic.

BORLAND.

THEATRICAL.

"THE GIRL FROM U. S. A."

A new musical comedy drama of unusual grand and gripping interest is "The Girl from U. S. A." which comes to the Paris Grand on Tuesday, February 8. The unravelment of the plot creates a series of mental sensations that reach high water mark at the close of the second act, when thunderous applause and persistent recalls cause the curtain to be raised again and again. The climax comes when the fearless American heroine in a bold attempt to rescue her French girl friend from the clutches of a high Turkish official finds herself trapped in the seraglio of that dignitary. When life itself seems hopeless, the drum beats and martial notes of Yankee Doodle are heard outside her gloomy prison and the steady tramp of a company of American Jackies is heard in the corridor preceded by the crashing in of ponderous gates. Then a glimpse of Old Glory is caught and the enuuchs and their cringing master cower in dismay. Not for many a day, it is said, has a scene of such stirring and blood-firing interest been revealed to the stage. The singing and acting talent of the company is said to be exceptionally strong and the hours of brilliant singing voices appears in a lavish display of varied and exquisite costumes. Reserved seats on sale at Mitchell & Blakemore's. Prices—Lower floor 75 cents; balcony 25 cents; gallery 25 cents.
